

# The ER isn't your only option

Save time and money by knowing where to go and when

Your primary care doctor is usually the best place to start when you need care. After all, they know your story. But you have other options for non-emergency care – even in the middle of the night. Make a plan now, so you're prepared when you need to choose care in a hurry. **And remember, going to the emergency room (ER) or calling 9-1-1 is always best when it's an emergency.**

Care outside of your plan may cost more out of pocket. Call the Member Services number on your ID card if you have questions about your plan.

<sup>2</sup> Prescription availability is defined by physician judgment.
